Verizon's Wire Centers Exempt from UNE Hi-Cap Loop and Dedicated Transport Ordering in Cox's Service Territory in the Virginia Beach MSA

6/21/2007

Reflects consolidation of: 1) the list effective on and after 2/3/06 (with MCI having been excluded from the fiber-based collocator counts in accordance with the MCI merger conditions), which superseded the list that was effective from 3/11/05 through 2/2/06; 2) the Supplemental List that was issued on 11/17/05 and became effective on 2/15/06; and 3) the Supplemental List that was issued on 3/23/07 and became effective 06/21/07.

Transport (Unbundled Dedicated Transport + Unbundled Dedicated Transport portion of a Loop-Transport combination)

DS1 Unbundled Transport will not be offered between Wire Center CLLIs marked "Yes" in the Tier 1 column.

DS3 Unbundled Transport and Dark Fiber will not be offered between Wire Center CLLIs marked "Yes" in either the Tier 1 or Tier 2 columns.

Loop (Unbundled Loop + Unbundled Loop portion of a Loop-Transport combination)

DS1 Unbundled Loop Services will not be offered from Wire Centers marked "Yes" in the DS1 Loop column.

DS3 Unbundled Loop Services will not be offered from Wire Centers marked "Yes" in the DS3 Loop column.

Operated State	Wire Center	WC Non-Impaired 06/21/07 - Yes or No			
		Tier 1	Tier 2	DS1 Loop	DS3 Loop
VA	NRFLVABS	Yes	No	No	No
	NRFLVAWC	No	Yes	No	No
	NWNWVAHU	No	Yes	No	No
	NWNWVAHV	No	Yes	No	No
	VRBHVACC	Yes	No	No	No

PRODUCTS & SERVICES[Voice Products](#)[Data Products](#)[Video Products](#)[Other Products](#)**A Quick Overview**

Cox Business is the business-to-business division of Cox Communications, Inc., the third largest cable provider in the nation and seventh largest telephone company with more than six million customers.

Cox Business is a facilities-based provider of advanced voice, data and video products and services to more than 200,000 business customers in industries ranging from healthcare and hospitality to government and education. The backbone of our capability as a communications provider is our self-owned and self-maintained nationwide IP network. Thousands of miles of fiber-optic cable make up the Cox system, designed with self-healing, fault-tolerant SONET architecture for enhanced dependability. And with our state-of-the-art Network Operations Centers monitoring the Cox network on a 24/7 basis, you're assured of consistent, reliable voice, data and video services for your business when you need them most.

Award-winning quality and service are the hallmarks of our business, with numerous honors and industry accolades illustrating the high level of customer satisfaction for which Cox Communications, and Cox Business, are well known.

A Brief History

The origin of the Cox enterprise dates back more than 100 years. The communications business got its start in 1962, when Cox built high-quality networks and began delivering quality cable television programs. Since that time, Cox Communications has grown to become the third-largest cable provider in the nation, with more than six million residential customers. The origins of the Cox Business division date back to 1987, when management began rebuilding its cable infrastructure into a fiber-optic, high-capacity broadband network. In 1993 Cox began offering competitive access services to small businesses and large enterprises alike in the Hampton Roads region in Virginia. By 1996 the company extended its business products under the Fibernet brand to include data transmission services carried over fiber-optic MANs (metropolitan area networks).

Cox Business continued to expand into new markets throughout the nation, and by 2003 the company celebrated its 100,000th customer location. Today, Cox offers a full suite of voice, data and video services for small, medium and large businesses as well as for government and education in more than 36 markets, from California to New England.
